

*Annex No. 1.*

## **Information notice on the postgraduate specialist training programme**

### **LL.M. in Energy and Natural Resources Law**

#### **Purpose of the LL.M. programme:**

The purpose of the postgraduate specialist LL.M. programme of **LL.M. in Energy and Natural Resources Law** is to provide participants with the main regulatory frameworks of energy law at international and national level as well. The training programme will give the students an insight into the world of electricity, natural gas and renewable energy regulation. It will also include the acquisition of key knowledge of international systems related to energy and of energy policy, for a more efficient use of natural resources.

#### **Length and form of the programme:**

The length of the training programme is **3 semesters**, starting in the autumn semester.

This is a part-time, **correspondence training**, classes are held after 12 noon on Fridays and on Saturdays.

#### **Qualification obtained on completion of the training programme: LL.M. in Energy and Natural Resources Law**

Pursuant to Article 116(6) of Act CCIV of 2011 on National Higher Education, graduates of the post-graduate specialist training programme are entitled to use the title “Legum Magister” or “Master of Laws” (abbreviated as LL.M.).

#### **Model Curriculum for LL.M. in Energy and Natural Resources Law**

**Program Director: Dr. Prof. habil. Róbert Szuchy**

No	Course-unit	Relevant semester	Number of lessons per semester (lecture / seminar)		Total number of lessons per semester	Credit	Course completion mode
			lecture	seminar			
1	Introduction to Energy Law and Energy Industry	1st semester	6		6	3	1
2	Sectoral regulation - electricity market regulation	1st semester	8		8	4	2

8	Energy and consumer protection	2nd semester	4	2	6	4	8

<b>Total in the second semester</b>			<b>42</b>	<b>18</b>	<b>60</b>	<b>30</b>	
	<b>Thesis consultation</b>	3rd semester		20	20	30	
	<b>Final exam preparation</b>	3rd semester	10		10	0	
<b>3rd semester</b>			<b>10</b>	<b>20</b>	<b>30</b>	<b>30</b>	
<b>Total</b>			<b>103</b>	<b>47</b>	<b>150</b>	<b>90</b>	

### **Tuition fee:**

Tuition fee in the 1<sup>st</sup> and 2<sup>nd</sup> semester: EUR 2.000 /semester

Tuition fee in the 3<sup>rd</sup> semester: EUR 1.000 /semester

The employer may undertake the payment of the tuition fee.

### **To whom we recommend the training:**

The training is open to all applicants who, in addition to fulfilling the admission requirements, wish to work in an energy company or at a public authority involved in the field of energy as lawyers.

### **Professional content of the training programme:**

#### **During the training, students will acquire the following professional competences:**

- knowledge of energy law and regulation;
- acquiring knowledge on the efficient use of natural resources;
- learning the international aspects of energy law;
- learning the administrative framework of energy;
- becoming acquainted with the contracts and obligations arising in the field of energy law.

Knowledge elements, obtainable knowledge:

Participants in the specialist training programme will acquire knowledge of the main regulatory frameworks of the law of energetics and energy law at both international and national level. The training programme will give the students an insight into the world of electricity, natural gas and renewable energy regulation. The training programme will also

include the acquisition of key knowledge of international systems related to energy and of energy policy, for a more efficient use of natural resources.

**Conditions of admission:**

- a master's degree in law obtained in an undivided training programme and qualification in law, and
- at least intermediate (B2) level, complex, state-recognised language examination in a foreign language, or an equivalent school-leaving certificate or diploma.

Experience in the energy or environmental field is an advantage but not a requirement.

**During the training programme, students can earn credits related to the fields of knowledge that are relevant to the qualification and to the main fields of knowledge:**

- *Foundational modules:* 25 credits (basic knowledge of energy law, basic knowledge of energy policy, basic knowledge of competition law, project management)
- *Core modules:* 35 credits (sectoral regulation, energy contracts, public law framework of the regulation, knowledge of international energy policy, the role of energy in external relations, consumer protection, knowledge of international dispute resolution)
- *Final exam consultation:* teacher's signature

**Credits for the thesis:** 30 credits

**Deadline and method of application:**

**Application deadline: 15 August 2024**

Applications can be submitted by e-mail, by letter or in person with a completed application form and the necessary attachments.

**Place of application:**

Faculty of Law of the Károli Gáspár University of the Reformed Church in Hungary  
Registrars Department
